To Whom It May Concern:

This letter attests to Mr. Clayton Anderson’s website knowledge, skills, and abilities.

Mr. Anderson served as our Website Designer/Developer from August 2013 to August 2015. Additionally, his services included providing maintenance of our website.

Mr. Anderson’s attention to details and his ability to be creative has been a great asset to our church. He takes pride in providing a high quality of work. Basically, I provided him foundational information and he took the information and built a workable, functional and easy to use website. He is knowledgeable in website software, graphics, and technology. He never ceases to educate himself and takes what he learns and uses the skills and ability to produce quality services.

I highly recommend Mr. Anderson’s website services.

Sincerely,

Barbara Hardy
